Office Order

Sub: Payment to Book keepers.

Book-keeping is an important component of SHG functioning. The ownership for maintenance of books of record should lie with the concerned SHG. Experience of similar projects across the country including SERP, indicates that payment to book keepers through external aid does not lead to sustainability of SHG program.

Considering the long term benefits for SHG movement, it has been decided that book keepers would not be paid any honorarium from the Project for writing SHG's books of records. However, it would be the discretion of SHGs to take appropriate decision for making any payment to book-keepers from their own sources.

Nevertheless, for capacity building of these book-keepers, DPMs are advised to hold special training programs at appropriate level as per the cost norms approved.

Subir Kumar, IAS
State Mission Director
